

ALLEN, Bob

One of the leading figures of speedway in Barnsley, Bob held the positions of track manager and secretary of the club as well as being a rider. He took part in the first league meeting ever held in the world when he was part of the Barnsley side which took to the track at Leeds on March 29, 1929 but, despite ending the season as the track record holder at the Lundwood track, he did not make much of an impact in team events and drifted out of the reckoning in mid-season.
