

LADBROOKE, Clifford (Cliff)

Born: December 16, 1918, Norwich, Norfolk, England.

Bespectacled Cliff was discovered by Norwich promoter Dicky Wise in winter training schools at The Firs and was sent out to Yarmouth to gain experience. He was given twelve league outings by the 'Bloaters' in 1949 and demonstrated excellent promise which led to his best performance in his last ever official meeting, when he won both his rides in the league fixture against Hastings at Caister Road at the start of July. He then picked up an injury during a practice session which cost him his place and he was never able to return to league action.
